PORTFOLIO sanketkamblein.github.io/productspace

Product professional with **9+ years of experience** *across software development, UX design, and early-stage product management. Holds a* **Master's from the Indian Institute of Science, Bengaluru** *with real-world IoT research.* **8+ years in UX at enterprise scale** *and* **1 year in software development***, with 1.5 years building a product at a startup. Leads AI-driven product initiatives at SAP and thrives in* **0–1 environments***, turning real user problems into scalable solutions through discovery, delivery, and cross-functional collaboration.*

WORK EXPERIENCE — 2022 TO PRESENT

SAP Labs
Bangalore

UX Design Specialist
April 2022 – Present

- Part of the **Private Cloud UX team**, designing **Asset Management** and **Finance** applications for SAP enterprise suites.
- Driving **AI-assisted workflows** for finance personas; designing cross-functional experiences connecting Finance with operational systems.
- Led concept design & implementation of the **Engagement Layer** — enabling intelligent interactions across enterprise applications.
- Coordinated Asset Management UX initiatives with designers across Europe and India, ensuring design consistency with product and engineering teams.
- Contributed to building the UX team and mentoring junior designers, strengthening design practices and collaboration.

Product Manager Trainee — Learning Fest
September 2024 – February 2025

- Completed structured product management course using the **Harmonized Product Operations Model**; focused on AI-driven procurement optimisation for SAP Ariba.
- Led a team of 8 developers through discovery; conducted stakeholder interviews and built a **validated Proof of Concept**.
- Collaborated with Ariba stakeholders to align product strategy with business needs.

CSR Contributor — MemoryLane Games
September 2024 – November 2024

- UX analysis, wireframes, and Product Requirement Document addressing usability gaps for elderly users; defined feature scope and user stories.

Axon Health (formerly FlashRad — Personal Initiative)
Bangalore

Product Lead
August 2023 – February 2025

- Retained as Product Lead following Axon's acquisition of FlashRad, based on strength of the Proof of Concept and early product traction.
- Led product development for a **mobile-first AI tool** supporting radiologists with faster diagnostic report generation.
- Prioritised Minimum Viable Product features balancing user needs, tech feasibility, and business impact; set up lightweight product processes and validation loops.

SAP PROJECTS & INTERNAL HACKATHONS

SAP Invent 2024 — ICCS Finalist
June 2024 – October 2024

Co-led development of ICCS (Intelligent Controls Compliance System) — an AI-powered anomaly detection system improving accuracy in Account Payable and reducing manual errors.

SAP Invent 2023 — EcoPulse Finalist
October 2023 – February 2024

Integrated Asset Management with **Industrial Internet of Things** sensors into a sustainability dashboard for manufacturing plants, enabling data-driven insights in enterprise systems.

WORK EXPERIENCE — PRIOR TO 2022

US Tech Solutions (Cerner — contract) *Bangalore*

UX Designer

May 2020 – April 2022

- Conducted user research for healthcare software influencing feature prioritisation for a **user base of 100M+ patients**.
- Identified accessibility issues and implemented solutions improving usability for global clients in the US and Europe.

Informatica *Bangalore*

Associate UX Designer

June 2019 – January 2020

- Worked on the **Axon Data Governance** tool — contributed UX design across core data governance workflows.

Netcore Solutions *Mumbai*

UX & UI Designer (MarTech)

November 2018 – June 2019

- Redesigned the **email campaign module** for 5,000+ enterprise customers through a design sprint, driving significant process improvement.
- Delivered user research, customer journey mapping, and wireframes to support new feature rollouts.

Accenture Services *Mumbai*

Associate Software Developer (SAP Advanced Business Application Programming)

July 2015 – July 2016

- Facilitated Clarks' legacy-to-SAP migration, ensuring accurate master data migration and easy end-user access.

OTHER PROJECTS & ACHIEVEMENTS

MIT Covid-19 Challenge — Winning Team (CoviCloud)

August 2020 – February 2021

Built CoviCloud, an innovative healthcare solution; secured validation through IIT Madras Entrepreneurship Cell's pre-incubation workshop.

Ergocheck — Indian Institute of Science Master's Thesis

May 2017 – June 2018

Designed and launched an IoT wearable device to assess and improve ergonomic conditions in manufacturing setups, integrating UX and business insights.

EDUCATION

Master of Design

Department of Design and Manufacturing (formerly CPDM), Indian Institute of Science, Bengaluru

July 2016 – June 2018

Bachelor of Engineering (Computer Engineering)

Sardar Patel Institute of Technology, University of Mumbai

August 2011 – June 2015

CERTIFICATION

Product Management

ProductHood School

August 2024

ADDITIONAL EXPERIENCE

- **Visiting Faculty** — Interaction Design, PES University, Bangalore (July–December 2019): Taught B.Des 3rd-year students and mentored for corporate projects.
