

General Information

Current: UX Design Specialist

Level: T2.L2

SAP Experience: 3+ Years

Summary

Product professional with **8+ years of experience across software development, UX design, and early-stage product management**. I hold a **full-time Master's from IISc**, India's top research institute, where I worked on real-world IoT innovations. I started my career as a **developer (including 1 year of ABAP)**, spent **7+ years in UX at ERP**, and now lead AI-driven product initiatives at SAP and in startups. With 1.5 years of product ownership experience, I focus on solving real user problems through discovery, delivery, and collaboration, especially in 0–1 product spaces.

@SAP

Pre-SAP

Work Experience

SAP Labs

Bangalore

UX Design Specialist

April 2022 - present

- Currently part of the **Private Cloud UX team** at SAP, working across **Asset Management** and **Finance** applications within SAP enterprise suites for Private Cloud customers.
- Driving AI-assisted workflows for finance personas and designing cross-functional experiences that connect Finance with operational systems.
- **Leading concept design and implementation** of the **Engagement Layer** to enable intelligent interactions across enterprise applications.
- Coordinated Asset Management UX initiatives with externally hired designers across Europe and India, ensuring design consistency and alignment with product and engineering teams.
- Contributed to building the UX team and mentoring junior designers, strengthening design practices and collaboration.

SAP Labs | Learning Fest

Bangalore

Product Manager Trainee

September 2024 - February 2025

- Completed Product Management course using the **HPOM model** as part of SAP's Learning Fest.
- Focused on **AI-driven procurement** optimization, enhancing supplier selection, bid evaluation, and negotiation insights.
- Collaborated with cross-functional teams, including stakeholders from **Ariba**, to align product strategy with business needs.
- Led a team of 8 developers through the discovery phase of an SAP Ariba sourcing problem.
- Conducted stakeholder interviews and built a validated POC to demonstrate feasibility.

Axon Health (Autorad)

Bangalore

Product Lead (Personal Initiative)

August 2023 - present

- Retained as Product Lead following Axon's **acquisition of AutoRad**, based on the strength of the POC and early product traction
- Led product development for a **mobile-first AI tool** supporting **radiologists** with faster **report generation**.
- Conducted market research and user discovery to define focus modalities and key pain points.
- Prioritized MVP features balancing user needs, tech feasibility, and business impact.
- Managed Jira backlog and led a 4-member cross-functional team (ML, dev, design)
- Set up lightweight product processes and validation loops to guide iterative delivery.

Key Projects & Achievements

SAP Invent

finalist (ICCS):

SAP Invent 2024

Product role

June 2024 - October 2024

- Co-led a team to develop ICCS (**Intelligent Controls Compliance System**), an AI-powered anomaly detection system that improved accuracy in the Account Payable process, reducing manual errors and increasing efficiency.

finalist (EcoPulse):

SAP Invent 2023

Product role

October 2023 - February 2024

- Integrated an Asset Management tool with IIoT sensors into a dashboard to analyze sustainability factors of manufacturing plants, enabling data-driven insights and driving innovation in enterprise systems.

CSR

MemoryLane Games

SAP Labs

Product Lead (Personal Initiative)

September 2024 - November 2024

- Conducted UX analysis of existing flows to identify usability gaps for elderly users.
- Created wireframes and low-fidelity prototypes focused on retention of user.
- Drafted a **Product Requirement Document** to outline feature scope, user stories, and edge cases

Education

Qualifications

Master of Design

Department of Design & Manufacturing,
Indian Institute of Science, Bangalore

Product Design and Engineering

July 2016 - June 2018

Bachelor of Engineering

Sardar Patel Institute of Technology,
University of Mumbai

Computer Science and Engineering

August 2011 - June 2015

Certification

Product Management

ProductHood School

August 2024

@SAP

Pre-SAP

Work Experience

US Tech Solutions (Cerner | contract)

Bangalore

UX Designer

May 2020 - April 2022

- Conducted user research for healthcare software, influencing feature prioritization and implementation for a user base of 100M patients.
- Identified accessibility issues and implemented solutions that improved usability for global clients in the US and Europe

Informatica

Bangalore

Associate UX Designer

June 2019 - January 2020

- Worked on Data Governance tool - Axon.

Netcore Solutions pvt lmtd

Mumbai

UX & UI Designer (MarTech)

November 2018 - June 2019

- Redefined the E-mail campaign module for 5000+ enterprise customers through a design sprint, driving significant process improvement.
- Delivered user research, customer journey mapping, and wireframes to support new feature rollouts.

Accenture services private limited

Mumbai / Pune

Associate Software Developer (SAP ABAP)

June 2015 - January 2016

- As an SAP ABAP developer, I facilitated Clarks' transition from a legacy to an SAP environment, with a focus on master data. By integrating their legacy data into the SAP system, I ensured accurate migration and easy access for end-users. My technical expertise and attention to detail contributed to the successful implementation of SAP at Clarks.

Exploratory Product Work

Mentor

Institute of Design

PES University, Bangalore

Visiting Faculty

July 2019 - December 2019

- Taught 'Interaction Design' to B.Des students (3rd year) for a semester, guiding them to practice on real problems in workshop sessions and mentoring for corporate work.

Digital Solution

co.WeCloud (solution)

IITM

winning team (covicloud): MIT covid 19 challenge

August 2020 - February 2021

- Created CoviCloud, an innovative healthcare solution, and secured validation through IITM E-Cell's pre-incubation workshop.

Tangible Solution

Ergocheck

Department of Design & Manufacturing, IISc

(Masters) Thesis Project at IISc

May 2017 - June 2018

- Built a posture-tracking wearable device to assess ergonomic conditions in industrial setups.
- Led both hardware integration and firmware logic, combining coding, sensor systems, and user experience.

Publication

ICCIDS 2019

Design and development of an assistive device for the visually impaired

Procedia Computer Science Journal, Elsevier
