LINKEDIN kamble-sanket-a5997a7b

Product professional with **9+ years of experience** across software development, UX design, and early-stage product management. Holds a **Master's from the Indian Institute of Science, Bengaluru** with real-world IoT research. **8+ years in UX at enterprise scale** and **1 year in software development**, with 1.5 years building a product at a startup. Leads AI-driven product initiatives at SAP and thrives in **0-1 environments**, turning real user problems into scalable solutions through discovery, delivery, and cross-functional collaboration.

WORK EXPERIENCE — 2022 TO PRESENT

SAP Labs

Bangalore

UX Design Specialist

April 2022 – Present

- Part of the **SCM UX team** (2022–2025), designing across Private Cloud and Public Cloud SAP products.
- Since May 2025, in the newly formed **Private Cloud UX team** — contributing to team buildout including hiring, product categorisation, file management, and mentoring junior designers.
- Accountable for UX of **Asset Management, Finance, and HCM**; responsible for cross-domain consistency of all Private Cloud products.
- Designed **Account Receivable Assistant** and **Settlement Expert Assistant** for Private Cloud — including AI-assisted workflows and **GTM initiative** for both products.
- Led concept design & implementation of the **Engagement Layer** — enabling intelligent interactions across enterprise applications.
- Coordinated UX initiatives with designers across Europe and India, ensuring consistency across product and engineering teams.

Product Manager Trainee — Learning Fest

September 2024 – February 2025

- Completed structured PM course using the **Harmonized Product Operations Model**; focused on AI-driven procurement optimisation for SAP Ariba.
- Led a team of 8 developers through discovery; conducted stakeholder interviews and built a **validated Proof of Concept**.
- Collaborated with Ariba stakeholders to align product strategy with business needs.

CSR Contributor — MemoryLane Games

September 2024 – November 2024

- UX analysis, wireframes, and PRD addressing usability gaps for elderly users; defined feature scope and user stories.

SAP Invent 2024 Finalist — ICCS — Internal Hackathon

Jun 2024 – Oct 2024

- Co-led ICCS (Intelligent Controls Compliance System) — AI-powered anomaly detection improving accuracy in Accounts Payable.

SAP Invent 2023 Finalist — EcoPulse — Internal Hackathon

Oct 2023 – Feb 2024

- Integrated Asset Management with Industrial IoT sensors into a sustainability dashboard for manufacturing plants.

Axon Health (formerly FlashRad — Personal Initiative)

Bangalore

Product Lead

August 2023 – February 2025

- Retained as Product Lead following Axon's acquisition of FlashRad, based on strength of the PoC and early product traction.
- Led product development for a **mobile-first AI tool** supporting radiologists with faster diagnostic report generation.
- Prioritised MVP features balancing user needs, tech feasibility, and business impact; set up lightweight product processes and validation loops.

WORK EXPERIENCE — PRIOR TO 2022

US Tech Solutions (Cerner — contract) UX Designer May 2020 — April 2022 - Conducted user research for healthcare software influencing feature prioritisation for a user base of 100M+ patients. - Identified accessibility issues and implemented solutions improving usability for global clients in the US and Europe.	Bangalore
Informatica Associate UX Designer June 2019 — January 2020 Worked on the Axon Data Governance tool — contributed UX design across core data governance workflows.	Bangalore
Netcore Solutions UX & UI Designer (MarTech) November 2018 — June 2019 - Redesigned the email campaign module for 5,000+ enterprise customers through a design sprint, driving significant process improvement. - Delivered user research, customer journey mapping, and wireframes to support new feature rollouts.	Mumbai
Accenture Services Associate Software Developer (SAP ABAP) July 2015 — July 2016 Facilitated Clarks' legacy-to-SAP migration, ensuring accurate master data migration and easy end-user access.	Mumbai

OTHER PROJECTS & ACHIEVEMENTS

MIT Covid-19 Challenge — Winning Team (CoviCloud) August 2020 — February 2021 Built CoviCloud, an innovative healthcare solution; secured validation through IIT Madras Entrepreneurship Cell's pre-incubation workshop.
Ergocheck — IISc Master's Thesis May 2017 — June 2018 Designed and launched an IoT wearable to assess and improve ergonomic conditions in manufacturing setups, integrating UX and business insights.

EDUCATION

Master of Design Dept. of Design & Manufacturing (formerly CPDM), Indian Institute of Science, Bengaluru July 2016 — June 2018
Bachelor of Engineering (Computer Engineering) Sardar Patel Institute of Technology, University of Mumbai August 2011 — June 2015
